

Please leave Indiana's no call list alone!

It has provided my family peace of mind and privacy. It is MY telephone and I should have the choice of how it is used.

The no-call list has dramatically cut the number of calls that I receive and has given me peace in my own home.

I will contact those with whom I choose to do business, I don't want to be bombarded with unsolicited garbage.

Leave Indiana's laws to Indiana residents.

Don't let the big money of telemarketers sway your decision to do what is right!
